SUMMARY

Passionate Mechanical Engineering student currently in the 3rd year, dedicated to develop strong technical proficiency and practical skills. Eager to explore various mechanical engineering domains with a sturdy commitment to continuous learning and professional growth.

EDUCATION

Air University, Islamabad

- Bachelor of Engineering – Mechanical Engineering, 2024-Present

Islamabad Model College for Girls F-6/2

- HSSC – Pre-Engineering 2022-2024

SKILLS

Technical: Problem Solving, AutoCAD, SolidWorks, 3D Modelling, Animations and Rendering Microsoft Office (Word, PowerPoint, Excel)

Soft Skills: Communication skills, Adaptability, Team work, Leadership

ACHIEVEMENTS

Academic

- Possess a CGPA of 2.76.

Semester Projects

Engine (Solidworks 3D Model)

Chasis(AutoCAD 3D Model)

Laser Based (Thermodynamics Lab project)

Energy Analysis of an Electric Kettle(Thermodynamics-I Project)

Energy and Entropy Analysis of Rolls-Royce Trent 1000 Engine

Hydraulic Braking Systemwith Cardboard and Syringes ☑

Interests:

Technical Work

Making new Inventions

Languages

LANGUAGES

Urdu-Native Proficiency

English-Professional Working Proficiency
